EDUCATION

FULLTASK DEVELOPMENT

Educación IT 2020 - 2021

INDUSTRIAL ENGINEERING

UNIVERSIDAD DR. RAFAEL BELLOSOS
CHANCÍN. 2012 - 2018

WORK EXPERIENCE

DIRECTOR OF SOFTWARE

ClimateScience, Feb 2022 - Nov 2024

- Directed the planning, design, development, and deployment of software solutions with Nextjs, Flutter and Firebase, ensuring alignment with business goals and technological standards.
- Led and mentored a team of developers, fostering a culture of innovation, collaboration, and continuous learning.
- Architected scalable and robust software systems, balancing technical feasibility with long-term maintainability.
- Conducted code reviews and enforced best practices in software engineering, version control, and documentation.
- Evaluated and implemented new technologies and tools to enhance development processes and team productivity.
- Collaborated cross-functionally with stakeholders, product managers, and designers to define project scope, timelines, and deliverables.

FREELANCE FULLSTACK DEVELOPER

Nov 2020 - Dic 2021

- Designed and developed responsive front-end interfaces using Angular and Nextjs, ensuring seamless user experiences across devices.
- Built and maintained scalable back-end APIs and services using Node.js and Express.
- Managed databases, including schema design, optimization, and maintenance for NoSQL (MongoDB, Firebase) systems.
- Collaborated with clients, designers, and other developers to gather requirements, provide progress updates, and deliver custom solutions.
- Deployed applications using Vercel and managed CI/CD pipelines for efficient updates.
